History of Nueces County, Texas

NUECES COUNTY is on the Gulf of Mexico southeast of San Antonio. It is bounded on the north by the Nueces River and on the east by the Laguna Madre, Corpus Christi Bay, and Redfish Bay. San Patricio County is on the north border, Jim Wells County on the west, and Kleberg County on the south. The county seat and largest city, Corpus Christi, is 210 miles southwest of Houston and 145 miles southeast of San Antonio. Two major highways serve the county, Interstate 37 and U.S. Highway 77. Two railroads, the Missouri Pacific and the Texas-Mexican, cross the county.

Nueces County, including the entire area south of Bexar County west to the Rio Grande and east to the Gulf of Mexico, was formed from San Patricio County in 1846 and organized the same year. Corpus Christi, which was incorporated in 1846, became the county seat. The population of the county, however, remained small. Although large numbers of fortune-seekers passed through Corpus Christi to join wagon trains heading west during the California gold rush of 1849, few settlers put down roots. Continuous Indian attacks and the relative isolation of the region kept away most would-be settlers. The first census of the county in 1850 showed a population of 689. Between 1850 and 1861 the Nueces County area was further divided to form several new counties.

During the early years of the Civil War, Corpus Christi was an important center for Confederate commerce. In 1859 no fewer than forty-five small vessels carried trade between Corpus Christi and Indianola. Small boats sailing inside the barrier islands transported goods from the Brazos River to the Rio Grande, while inland cotton was moved along the Cotton Road through Banquete to Matamoros and the mills of England. In an effort to halt the trade, Union forces seized control of Mustang Island in the fall of 1863. Corpus Christi was twice bombarded by federal gunboats, but the overland trade continued without interruption until the end of the war.

Although Nueces County escaped the destruction that devastated other parts of the South, the war years were difficult for the county's citizens, who were thwarted by the lack of markets and the wild fluctuations in Confederate currency, as well as by concern for combatants. After the war Nueces County residents experienced a protracted period of lawlessness and violence. Turmoil continued along the Mexican border, and cattle rustling and raids by bandits were frequent problems. In the end, however, because of its relatively small population, Nueces County was spared much of the fighting that other Texas counties experienced, and order was generally restored by the early 1870s.

During the latter half of the nineteenth and the early twentieth centuries, the population of Nueces County grew markedly, particularly in the decade after the turn of the century. In 1860 the county had only 2,906 residents, but the number increased rapidly in the post-Civil War years, to 3,975 in 1870, 7,673 in 1880, 8,093 in 1890, 10,439 in 1900, and 21,955 in 1910. Much of the population was centered in and around Corpus Christi, which gradually emerged as the commercial hub of the region. As the city grew in importance as a shipping center, efforts were made to improve access to the ocean. In 1874 the main sea channel was dredged to a depth of eight feet to allow large steamers to navigate. During the mid-1870s construction also began on the county's first railroad, a narrow-gauge line from Corpus Christi to Laredo. After its completion in 1881 a second line was begun, the San Antonio and Aransas Pass, which was completed in 1886 and extended from Corpus Christi to San Antonio.

In 1926 the port of Corpus Christi was opened. The legislature made the port a state project by allocating the taxes from seven adjacent counties for the construction of breakwaters, jetties, and other ancillary improvements. The channel from the Gulf of Mexico to the turning basin is a part of the Gulf Intracoastal Waterway, which connects the port with cities of the Mississippi valley as well as with foreign markets and makes it potentially one of the chief ports of America. In 1935 the depth of the channel was increased to thirty-five feet so that large ships could be accommodated. The 1930s and 1940s also brought improvements in the transportation network of the county. By 1940 most of the major roads in the county were paved, and U.S. Highway 77 and State highways 44 and 286 had given farmers better access to markets.

The military importance of the area has been recognized since the time of the Mexican War, when Fort Marcy, the first federal post activated on Texas soil, was established. At one time Nueces County had five federal forts; Corpus Christi was a supply depot until 1857. On March 12, 1941, with the establishment of the Naval Air Station, Corpus Christi, the town became the home of the so-called "University of the Air."

Since World War I Nueces County has shown a remarkable growth in population, increasing from 22,807 residents in 1920 to 165,471 in 1950 and to 237,544 in 1970. In 1991 the reported population of the county was 296,527. Hispanics were about 50.5 percent of the population non-Hispanic whites 44.1 percent and African Americans 4.4 percent. The largest towns were Corpus Christi, Robstown, Port Aransas, and North San Pedro. During the early 1980s the county had thirteen school districts with sixty elementary, twenty middle, and fifteen high schools, as well as six special-education schools.

The total number of businesses in the county in the early 1980s was 6,425. In 1980, 7 percent of workers were self-employed, 20 percent in professional or related services, 12 percent in manufacturing, 23 percent in wholesale or retail trade, and 10 percent in construction. In addition 5 percent were employed in other counties, and 14,911 retired workers lived in the county. Leading industries included tourism, agribusiness, general and heavy construction, oil and gas field services, meat packing, soft-drink bottling and canning, commercial printing, petroleum refining, ship building and repairing, and zinc refining. Also important were manufacturers of dairy products, bakery products, men's and women's clothing, plastics and resins, cement and ready-mix concrete, prefabricated metal buildings, oilfield machinery, and electronic components. Leading attractions in Nueces County include Padre Island National Seashore, Mustang Island State Park, the Texas State Aquarium, the Art Museum of South Texas, and the USS *Lexington*, a World War II aircraft carrier-museum in Corpus Christi Bay.

Ladies and Gentlemen:

As adopted by the Commissioners Court on September 04, 2013, the Nueces County budget for 2013/2014 fiscal year is herein submitted. Under the leadership of County Judge Loyd Neal and county commissioners Mike Pusley, Joe Gonzalez, Oscar Ortiz and Joe McComb, the commissioners court is continuing the plan created five years ago to make county government: (1) more transparent; (2) have attainable and realistic budgets to enhance accountability; (3) recognize employee service and dedication by funding the continuance pay policy for the sixth year in a row, and (4) make county government more efficient and effective by establishing procedures that are in compliance with statutory requirements and utilizing technology to maximize performance.

Significant items included in this budget are:

- This budget contains a slight tax increase as compared to the effective tax rate. Commissioners court adopted a tax rate of .345187 per \$100 value. In comparison to the effective tax rate of .322678 however, the adopted tax rate is higher by 6.98%. The separate components are: general fund operating .286674, road fund operating .004188 and debt service .054325.
- Property values increased as compared to the previous year, relieving concerns that the local real estate market was mirroring many parts of the country. To repeat, property values increased and are expected to continue to grow. For the past twenty years, property values in Nueces County lost value only once, which occurred in FY 2010/2011. Excluding property values that are subject to a tax ceiling (such as for taxpayers 65 years old and older) and using the "lower" valuations for property under protest, the total net taxable value (NTV) is \$20.613 billion. Last year the NTV was \$18.710 billion. The gain in value of \$1.903 billion was approximately 10.169%.
- In preparing this budget, the external issues affecting the budget were identified. Some of these issues were: countering cuts in state and federal funding, adapting to

higher pension costs, funding pay increases for law enforcement according to collective bargaining agreement and maintaining the fund balance at 25% of the sum of revenues and transfers in.

The overarching guidelines used by commissioners court in resolving the above budgetary issues were tax increase had to be minimal and service levels had to be maintained. The decisions made to achieve these objectives were:

1. Provides salary increases for employees including a 1.0% cost of living increase for law enforcement personnel under the Nueces County Sheriff's Officers Association Collective Bargaining Agreement. There is also a continuance pay increase for approximately 350 employees. Continuance pay is a 2.5% pay increase every 3 years of service
2. Includes reclassification of fifty-six positions including forty-seven attorney positions at a cost of \$184,824 (an average increase of \$3,300 per position)
3. Maintains total non-salary expenditures for all operating funds at or near the same level as the current year
4. Provides some limited new program funding
5. Does not provide additional funding for programs that lost all or a portion of state or federal funding
6. Provides funding for right of way cost share related to interstate 69 construction

Other than the changes discussed above, the remainder of the budget for the operating funds compared to last year's budget remained the same for both revenues and appropriations. We anticipate actual performance to continue to be stable and strong resulting in a favorable comparison to this adopted budget.

2013-14 Budget Summary

Net property tax valuations are up and as of January 1, 2013 valuations are higher by approximately 10.169% for a total net taxable valuation of \$20.613 billion. New growth was \$286.171 million. For further information on property valuations for the past twenty one year's see the schedules that begin on page 453.

Total revenues for all funds are budgeted \$117.00 million. Compared to the 2012-13 Budget of \$112.50 million as shown on the *Condensed County Budgets* table as follows, the revenues are higher by \$4.50 million or 4.00%. Total resources available in this budget are \$179.00 million. The prior year budget had \$171.57 million total available resources. Total available resources comprise beginning fund balances, revenues, and transfers in. It is estimated that the county will begin this fiscal year with \$52.01 million in fund balances – all funds. By law the total of budget allocations cannot exceed the total of resources available. Again, for fiscal year 2013-14 the total resources available are \$179.00 million.

The total appropriations budget, excluding transfers out, for all funds is \$147.36 million. The appropriations budget is higher by \$5.48 million or 3.86% as compared to the 2012-13 budget of \$141.88 million. Grand total FY 13/14 allocations, which include transfers out and ending fund balances for all funds, is \$179.00 million, an increase of \$7.43 million as compared to FY 12-13. Budgeted ending fund balances are \$21.64 million, an increase of 3.09%

compared to last year. In summary, resources available were allocated toward appropriations and ending fund balances in such a way that appropriations will cover the anticipated higher costs, and most importantly the county will end the new fiscal year with slight increase to fund balances per policy and keeping its current strong position.

Revenues show an increase of \$4.50 million as shown on the *Change in Revenue Budgets All Funds (FY 13/14 to FY 12/13)* see table below. This net increase is due to an increase in tax revenues.

Sub-total Other Funds	23.12	21.76	(1.36)
Total Revenues \$	112.50	117.00	4.50

In line with what was previously stated, that revenues are projected to have consistent stable performance, the total revenues budget shown above for the operating funds is higher than it was in the previous fiscal year. The decrease in revenues in the road and bridge fund is offset by an increase in revenues in the general fund. This outcome is due to a change at the state level as to what funds the State of Texas is using to pay the county its collection commission for collecting state sales tax on the sales of motor vehicles and auto registration fees. The source of funds used by the state to pay the county's collection commission determines what fund the county must credit for the receipt of the collection commission. The county's budget for the change made by the state had to be adjusted by increasing the general fund and decreasing the road and bridge.

Grant income is budgeted lower to reflect fewer programs available due to the economic times. For this budget efforts are focused on completing prior contracts related to infrastructure construction in the Colonias.

Overall and even when reviewed at a micro level, there is a minimal increase in revenues from the previous year which is an excellent position to be in considering the current economic times.

Total Appropriations Budget \$	141.88	147.36	5.48

In the table, *Change in Appropriations Budgets – All Funds (FY 12/13 to FY 13/14)*, it shows \$5.48 million more appropriations over last year. Overall there is minimal change in total appropriations. The increases in total operating, debt service, special revenue, and self-insurance funds are offset by the decreases in grants and capital projects funds. Both capital projects and grants have lower appropriations due to less funding available.

As to the operating funds, the net increase of \$5.29 million is minimal. The general fund reflects an increase of \$2.75 million. Considering the newly added state and federal unfunded mandates, the cost of salary increases and the inflationary costs that the commissioners court had to offset by other budgetary cuts, the fact that it is only a slight increase is a significant accomplishment.

Appropriations are further discussed by expenditure type later in this report. Looking at the big picture the operating appropriations budget reflects a 3.86% increase. This increase in the operating funds appropriations budget appears easily acceptable since at first glance the amount is too small to have any impact on operations. Please remember however, that several line items that were cut are connected to normal operating costs. In summary, this budget is the basis for controlling expenditures for the new fiscal year. The sum totals alone do not reflect the challenges that were faced while preparing this budget and that still must be faced in its execution.

Revenues by Fund Group

Operating Funds

There are seven governmental funds which the county refers to as operating funds, of which, the general fund is the largest and the main operating fund. The operating funds are listed on the *Summary of Projected Fund Balances for 2013/2014 Budget*, page 36

The proportion of property tax revenue including penalties and interest on delinquent collections as a percent of total revenues (operating funds only) has been inching forward and is becoming a larger component of total revenues as shown below.

	Property Tax Revenue (millions)	% Tax Revenue of Total Revenue	Total Revenue
Actual FY 10/11	\$53.77	71.60%	\$75.10
Actual FY 11/12	\$55.07	72.38%	\$76.08
Estimated Actual FY 12/13	\$57.07	73.53%	\$77.61
Budget FY 13/14	\$61.66	76.55%	\$80.55

Current property taxes are budgeted using a 95.0% collection rate. The actual collection rate is higher, but a portion of collections is committed to a tax increment financing zone and deferred payment plans. Please see schedules in the back of this book on property valuations and effective tax rates for further information related to property taxes.

The total revenue budget for the operating funds has an increase of \$4.50 million as compared to FY 2012/2013 budget. Budgeted property tax revenues increased by \$4.64 million in the general fund for a tax increase as previously mentioned. Revenues from property taxes can only increase in two ways: (1) an increase in the tax rate as defined by Truth-In-Taxation or (2) the community experiences new construction from either the commercial or residential sectors. This year's property tax budget benefited from both of these two events.

Considering the predominate reliance on property tax revenues for funding operations and that the other revenues are staid, brings into focus the importance of property taxes as the primary funding source for all the county's operations. Recall in the 2010/2011 year a tax decrease, as defined by effective tax rate regulations, was adopted which reduced general fund revenues by \$2.12 million. To keep fund balances at current levels a balanced budget in the future will be needed.

Debt Service Fund

Property taxes are separately levied to meet debt service requirements. The only other revenue source is investment income, which is minimal. The tax rate was set at 0.054325 a decrease of (6.68%) as compared to FY 2012/2013 budget. The current tax rate will generate \$11,013,579 in current taxes to meet debt service requirements that total \$11,091,487 leaving a budgeted ending fund balance of \$4,562,433.

Capital Projects Fund

The capital projects fund is reported along with the other budgets, but officially is not part of the annual budget adopted by commissioners court. Instead project length budgets are adopted separately. Projects that are in progress are budgeted at \$12.13 million, a decrease of \$0.68 million over last year. This decrease is normal for projects completed. Again, no new projects are planned to be added as of the beginning of this fiscal year.

Other Funds

There are three funds categorized as other funds: the special revenue fund, grant fund and the self-insurance fund. These funds are not considered as operating funds because their use is restricted due to legislation, contractual agreements or commissioners court action. In addition, much of the funding recorded in the special revenues fund and grants fund is precarious and therefore not suitable for financing ongoing operations.

The special revenues fund is comprised of many sub-funds which retain their own ending fund balances. In other words, the fund balances at the sub-fund level carry-over from year to year. For presentation purposes, the sub-funds are totaled together according to the same legal spending authority or like-kind purposes. For example, state law gives the spending authority of asset forfeiture funds to the applicable law enforcement agency and district attorney. The asset forfeiture funds are not under the control of Commissioners court. The asset forfeiture funds are grouped together because of like-kind purpose. The largest sub-fund groups are those funds under the authority of Commissioners court which has an appropriations budget of \$4,441,571. The second largest sub-fund group presented by same legal spending authority is the county clerk funds with a total appropriations budget of \$2,956,120. Examples of some of the sub-funds under county clerk control are: records archive, records management, voting machines and election services. Please see page 264 for a summary on the special revenue funds. Total combined revenues are \$5,883,149 for the special revenues fund for the 13/14 budget, an increase of \$1,417,654 as compared to last year.

Grant funds continue to be a vital source of revenue to the county. Officially, grant activity is not adopted as part of the annual budget because separate program budgets are adopted instead, which overlap the county's fiscal years. For information purposes grant activities are herein included. As compared to prior year, grant fund revenues reflect a decrease of \$2.58 million. This includes outside matching sources and in-kind contributions. As mentioned before, grant funding is less available and the county's priorities are to finalize the Colonias project. Please see a list of all the grants considered in preparing this budget on page 352.

The self-insurance fund revenues come from premiums charged to the operating funds for workers compensation, property and general liability and group medical insurance. As expected, when revenues in the self-insurance fund go up, operating fund expenditures will also increase. The county is not 100% self-insured. The self-insurance fund purchases commercial policies, which when prices go up also triggers premium increases to the operating funds. The self-insurance fund has to charge premiums to the operating funds large enough to cover the sum of anticipated costs in those areas where the county is self-insured

and to pay for outside commercial policy premium costs plus deductibles. The county has an excellent safety record for the past nine years and is experiencing low premium costs in workers compensation. Premiums charged to the operating funds for general liability have increased due to higher windstorm coverage. A schedule of insurance coverages for property and other risks for which commercial policies are obtained is presented in the back of this book on page 462.

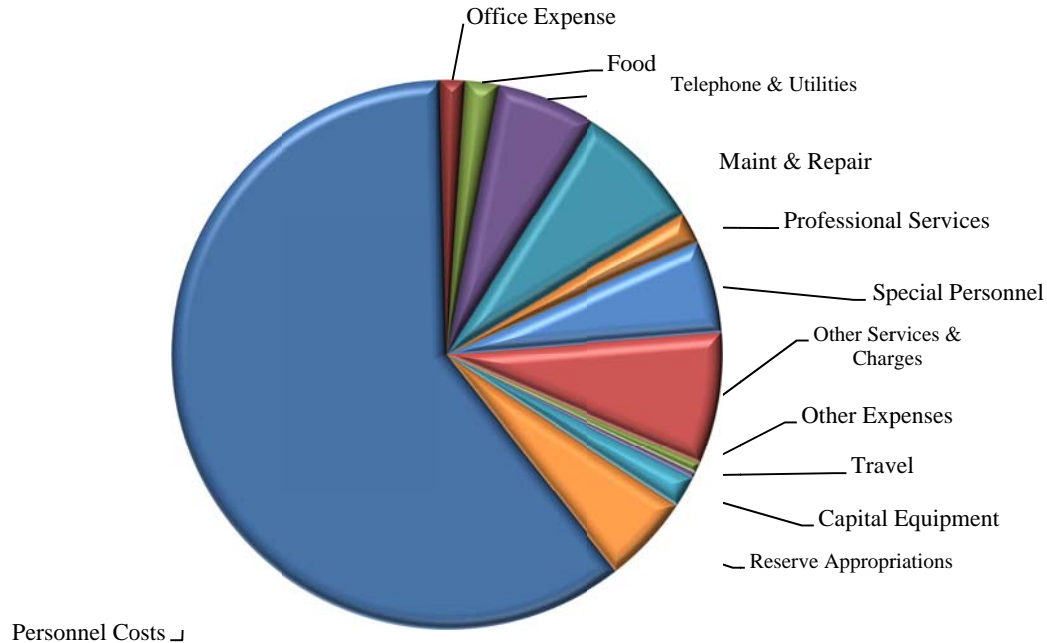

This section concludes analysis on revenues until later in this report where the general fund and road and bridge fund are broken out in further detail. The good news starting last budget year is that property valuations increased from the previous year and realized some new growth. Overall, the county's revenues look consistent, stable and dependable. Actual performance at the end of this fiscal year is expected to be better than the amounts budgeted herein.

Appropriations – Operating Funds Group

The total operating funds budget (appropriations only, without transfers out) is 5.99% higher or \$5,285,849 higher than the 2012/2013 budget. The following table, *Operating Funds-Appropriations by Expense Type*, presents a year-to-year budgetary comparison by expense type. Again, a list of the funds that comprise the operating funds group, please refer to the *Summary of Projected Fund Balances for 2013/2014 Budget* on page 36.

Budget 2013-14
Operating Funds - Appropriations by Expense Type

Personnel costs are budgeted higher by \$2,248,338, which is the net effect of several items. Some of the items are: law enforcement cost of living pay increases of 1% in accordance with collective bargaining agreement, a 2 ½% pay increase for approximately 350 employees eligible for the 3 years of service continuance pay, reclassification of fifty six positions, higher pension costs, and the previously imposed 30 day hiring freeze was removed.

Telephone and utilities was slightly increased for higher oil prices that come across the utility bills as surcharges. After installing new energy efficiency systems, there will not be a budgetary impact because the cost savings will go toward debt repayment. The budget for telephone and utilities has just a little leeway left for future price increases.

Maintenance and repairs increased by 7.28%. This increase in the maintenance and repairs budget represents an increase in the cost of materials used in the repair of roads and bridges and an increase in general repair costs for the other county buildings in general.

The decrease of \$61,600 in special personnel is due to the slightly lower volume of criminal cases especially in the juvenile cases.

Other services and charges increased by \$748,477 which is attributed to \$800,000 going toward the County's portion of the Staples Street upgrade. The remaining difference of (\$51,523) is the net effect of several other small changes.

Capital outlay is a category that has discretionary spending as a large component. To stay within the overarching guidelines in setting this budget, the commissioners court eliminated the discretionary component in the capital outlay budget.

Contingency appropriations are not an expenditure category in and of itself. It is strictly used for budgetary purposes where an appropriation is set aside for unforeseen expenditures. Commissioners court must approve all transfers from this category. The funding available for unforeseen expenditures was increased by \$1,240,163.

Explaining the reasons for the changes in the budget based on the budget categories or rather by type of expense will also apply when looking at the budget changes by governmental function. Below is a table comparing 2013/2014 appropriations budget (operating funds only) to 2012/2013 budget by function of government.

Operating Funds – Appropriations sorted by Governmental Function 2012-13 Budget vs. 2013-14 Budget					
Governmental Function	12/13	13/14	Increase (Decrease)	Yr to Yr Percentage	% of Total Change

Parks & Recreation	6,658,500	8,665,941	2,007,441	30.15	37.98
Total Appropriations	\$88,252,319	\$93,538,168	5,285,849	5.99%	100%

The governmental functions with the largest changes are parks and recreation showing an increase of \$2,007,441, general government with an increase of \$902,715, law enforcement and corrections with an increase of \$716,768, administration of justice with an increase of \$556,953, road & bridge with an increase of \$525,701, and finally the governmental function of capital outlay shows an increase of \$420,000.

The governmental function of parks and recreations has the largest change with an increase of \$2,007,441. This increase is due to additional reserve appropriation from revenue received from the sale assets. The use of these reserve appropriations are for unforeseen expenditures and are contingent upon commissioners court approval.

The governmental function of general government also experienced a significant increase of \$902,715. The general government function increased in the following areas: cost of continuance pay of 2.5%, reclassifications of the attorney positions of County Attorney as well as several other dept. reclassifications, and an increase in contingent appropriations.

The governmental function of law enforcement and corrections also experienced a significant increase of \$716,768. The law enforcement and corrections function increase was due to a cost of living increase of 1% for all law enforcement personnel based on the Nueces County Sheriff's Officers Association Collective Bargaining Agreement, the cost of continuance pay of 2.5%, reclassifications of the attorney positions of District Attorney.

The governmental function of administration of justice experienced an increase of \$556,953. The administration of justice function increase was due to a cost of continuance pay of 2.5%, reclassifications of positions of several departments, and the increase in pay of the County Court at Law Judges based on statutory rule.

In summary, the appropriations for the operating funds increased by 5.99%. The total amount budgeted for operating funds appropriations is \$93.54 million. The fiscal impact from increased personnel costs, higher property insurance costs, mandated cost increases, and other market forces have been addressed and mitigated in this budget. With this budget, county services should continue as normal, but further efficiencies need to be identified to control increased risks caused by budgetary pressures.

Fund Balances

Ending fund balances for operating funds are budgeted at \$16.23 million for fiscal year 2013-14. Compared to last year this is higher by 9.15% or \$1.36 million. Last year the budget for ending fund balances was \$14.87 million. Budgeted ending fund balances for all funds is shown on the *Summary of Projected Fund Balances for 2013/2014*, page 36 and are budgeted at \$21.64 million. In comparison, the ending reserves were budgeted at \$20.99 million in 2012-13.

The county's *Budget Policies and Procedures* (see page 30) on minimum general fund reserves establishes the minimum to be at least twenty-five percent of general fund budgeted revenues and transfers in. Applying this guideline equates out to \$19.44 million which puts the budgeted ending fund balance short by \$4,603,727. A budgeted ending fund balance is not the same as the actual ending fund balance. It is projected, that the actual ending fund balance will meet the guidelines because actual expenditures historically are less than budgeted appropriations and actual revenues are more than budgeted revenues. Typically the general fund actual revenues are 101% of budgeted revenues, and actual expenditures are 97% of budgeted appropriations resulting in an ending fund balance of more than what is budgeted.

Fund balances in all operating funds, debt service fund reflect strong balances and are at the upper limits recommended by bond rating agencies.

Employee Positions

This budget includes position control over all county employees. Personnel cannot be hired without a position budgeted and approved by commissioners court. In addition, each employee position automatically freezes upon vacancy as ordered by commissioners court (see page 408 for the Order of the Nueces County Commissioners Court Affecting Budget Authority for Employee Positions).

There are a total of 1,195 budgeted positions, a net increase of 11 positions compared to last year. Most of these positions are full time equivalents but not all. Part-time positions and shared positions are counted as whole positions in each department for position control purposes.

The net change to the county's labor force by governmental function is as follows:

Percent Change in Labor Force by Governmental Function				
Governmental Function:	12/13	13/14	Increase (Decrease)	% Change

Transferred employees have no financial impact on the bottom line, but do reflect County management's assessments and priorities. There were several positions that were transferred for the fiscal year 2013-2014. Transfers are not counted as additions or deletions in the table, *Employee Position Changes*.

Each department's budget includes a detailed employee position schedule along with their financial budget if that department has employees assigned. The table below shows a multi-year comparison of county staffing levels for each government function. Again there are 1,195 positions budgeted for the 2013/2014 fiscal year, increased by 11 positions. This count does not include the 197 positions in CSCD under the State of Texas, the 19 positions allotted to the city/county health department or the 3 positions budgeted for vector control.

Personnel costs comprise 60.16% of total operating appropriations and to achieve the cost savings large enough to offset the mandated cost increases, the commissioners court had to take action that affected personnel cost. The general fund personnel budget has returned to 100% when commissioner court removed the 30-day freeze that was part of the last two budgets. Monitoring personnel costs still will be closely done because of the built-in budgetary impact.

Budget Detail of the Operating Funds Group by Fund

The county categorizes all the governmental funds in four groups: operating funds, debt service funds, capital projects funds and other funds. Budgetary changes and highlights are presented in this section on each fund separately that are part of the operating funds group.

The General Fund is the main operating fund in that it can be legally used for any activity or governmental function. The total appropriations and transfers out budget is higher by 5.31% or \$4,245,484 for a total of \$84,236,895. The general fund subsidizes the road & bridge fund, stadium & fairgrounds fund, inland parks fund and coastal parks fund, airport fund and capital projects fund and provides most of the local match on grants. These subsidies are budgeted as transfers out. The 2013-2014 budget for transfers out is \$8,298,670 which is \$1,495,890 higher than the previous year. Appropriations are \$75,938,225 which is \$2,749,594 higher or 3.76% higher than the previous year.

General fund revenues and transfers in increased by \$4,281,622 or 5.83% for a total of \$77,774,179. Total budgeted appropriations and transfers out exceed total revenues and

transfers in by \$6,462,716 reducing the fund balance reserves. As mentioned earlier, actual expenditures have always been less than budgeted appropriations, and at the end of this fiscal year the ending fund balance is expected to be higher than the budgeted ending fund balance. See *General Fund Revenues Summary* on page 48.

The general fund revenues and transfers in are conservatively budgeted at \$77,774,179 with the expectation of actual revenues to come in around 105% of the amount budgeted. The general fund tax rate is 0.286674 per \$100 property valuation. Property taxes comprise 76.55% of total general fund revenues and transfers in. Last year, property taxes constituted 72.60% of total general fund revenues and transfers in.

The following table, *General Fund Revenues and Transfers In Budget Comparison*, shows the current year budget compared to 2011-12 Actual and the 2012-13 Budget

Budget 2013-14
General Fund Expenditures and Transfer Out

Total expenditures and transfers out increased by 5.31% or in dollars only \$4,245,484.

Again most of the large changes made to the general fund expenditures and transfer out budget for 2013-14 have been explained elsewhere in this report. The budget compares favorably to the prior year.

Getting to this bottom line was not an easy task. The hard decisions faced by Commissioners court were not one time only decisions. Some of the issues will need to be deliberated on again for the next year. Needless to say, this is a tight budget, but current services levels are planned to be maintained and fund balances comply with financial policies.

Using a bar chart to compare the budget changes (excluding personnel costs) in dollar amount order makes it easier to see the changes made. Personnel cost is the largest expenditure and comprises 59.69% of total general fund appropriations and transfers out. This category is eliminated in the bar chart for displaying purposes.

A complete schedule of all transfers for all funds is presented on page 44. Please see *Schedule of Budgeted Transfers 2012/2013* for more information.

Recapping, the General Fund 2013-2014 budgeted revenues and transfers in is \$77,774,179 and expenditures and transfers out is \$84,236,895 leaving a budgeted ending fund balance of \$14,839,818. The budgeted ending fund balance represent 2.11 months of cash flow using 13/14 budget figures. Considering that actual performance is usually favorable when compared to the budget, the general fund ending fund balance at 9/30/14 is projected to be in compliance with the 25% minimum fund balance policy.

The Road & Bridge Fund comprises three departments: road & bridge, engineering, road right of way. The road & bridge and engineering department are the main departments and the following tables cover these operations only.

The primary source of funding for these operations comes from a \$10 vehicle registration fee and a collection commission from the State of Texas. Revenues deriving from motor vehicle

related cash flows total \$3,150,000 and represent 42.94% of total revenues and transfers in of \$7,336,259. Property taxes provide 12.22% of the funding for a total of \$894,816. Total revenues and transfers in as shown on the following table, *Road & Bridge Revenues and Transfers In Budget Comparison* are \$622,055 more than the prior year budget.

This increase is mainly due to two categories; property tax and transfers in. As previously explained, due to a change made at the state level the commission for collecting the state sales tax on the sale of motor vehicles is being moved over to the general fund. This change will take a few more years to implement. To compensate the road fund for this loss in revenue, the general fund has increased transfers to the road and bridge fund. The other significant increase in the budget is from property taxes which is due entirely to higher evaluations and new construction.

The 2013-2014 tax rate for Farm-to-Market, Lateral Road & Flood Control is .004188 per \$100 valuation which is higher than the effective tax rate of 0.003878. Intergovernmental revenues survived the last Texas legislative session without diminution due to statewide opposition from all counties. Countering such proposed mandates may take more time and attention in the future.

**2013-14 Budget
Road and Bridge Fund Revenues and Transfers In**

The total road and bridge and engineering departmental expenditures and transfers out are summarized in the table, *Road & Bridge Fund Expenditures and Transfers Out Budget Comparison*. Expenditures and transfers out for 2013-14 total \$8,582,530 and is \$521,540 more than 2012-13. As previously mentioned, operations should be unaffected by this increase because it is due to the increase in continuance pay of 2.5% to employees and an increase in contingency appropriations. The transfer out to the airport fund in the amount of \$16,080 has to be appropriated to compensate the airport for the use of its land to store road materials. This change was required to comply with federal transportation regulations.

Annual appropriations are necessary to maintain 400 miles of paved roads, 300 miles of caliche roads and 249 bridges. The county's roads and bridges are in excellent condition since 2006 when a \$55.33 million rehabilitation program was completed. The road rehabilitation expenditures which total \$42.54 million are being depreciated over a period of ten years. It is the county's goal to keep these roads and bridges in their "as improved" condition. The challenge of this and future budgets is to synchronize the availability of funds and hence keep the maintenance budget up with the pace of deterioration from use plus maintaining a minimum 25% fund balance.

**2013-14 Budget
Road and Bridge Fund Expenditures and Transfers Out**

In summary, the road and bridge and engineering department's appropriations and transfers out are greater than revenues and transfers in by \$1,246,271. Budgeted ending fund balance is \$159,585 which is less than one month of operating cash flow using budgeted FY 13/14 expenditures and transfers out.

The remaining department in the road and bridge fund is the road right of way funds. The road right of way fund monies are designated for financing the county's 10% share of any projects the Texas Department of Transportation (TXDOT) pursues requiring the purchase of right-of-way. The only two sources of income are interest income which is budgeted at \$0 and transfers from the general fund totaling \$800,000. All resources are budgeted as appropriations for a total of \$800,000 leaving a \$22,426 ending fund balance.

The Stadium & Fairground Fund was established after opening the new Richard M. Borchard Regional Fairgrounds in January 2007. A professional firm is contracted to manage the stadium and fairgrounds. This year the transfer to stadium & fairground funds is \$1,050,555, the same as last three years.

Total appropriations are budgeted at \$4,227,300. The ending fund balance is budgeted at \$692,656 which shows a decrease of \$2,138,495 less than the previous year.

It is important to note that \$1,000,000 of appropriations is contingent upon receiving other income from fairgrounds or other financing sources.

The Law Library Fund is self-sustaining with revenues coming from civil case fees, user fees and miscellaneous other revenues. Revenues are budgeted at \$177,850 and appropriations are budgeted at \$224,776 with a difference of (\$46,926). The budgeted ending fund balance is \$225,409 and is lower by \$6,057 as compared to last year.

Airport Fund accounts for the county airport located outside the city of Robstown. Total resources are split with 48% coming from hanger rentals, investment income, and fuel sales and 52% from transfers in. The general fund will transfer \$60,000 which is the same as previous year. The revenues budget total is \$71,208. Appropriations and transfers out are budgeted at \$192,776, an increase over last year's budget by \$4,161. The ending fund balance is budgeted at \$32,244. The airport has installed new self-serve fuel dispensers which went into full operation February 2010 and with funding from TXDOT five new hangers were built. Revenues are anticipated to increase as a result of these changes.

The Inland Parks Fund covers operations of the county's parks not located on the coast. There are thirteen county parks included. For a list of county parks see page 461. The majority of funding for the inland parks fund comes from the general fund as transfers in. There is also a minimal transfer to inland parks from the stadium and fairgrounds fund.

Transfers in from the general fund are budgeted at \$1,217,460, which is an increase of \$29,000 as compared to last year. The stadium fund is transferring \$15,500 to inland parks for grass cutting services. Appropriations and transfers out increased by \$104,134 for a total of \$1,491,180.

The senior community services director is in charge and oversees inland parks operations. The director's salary is budgeted 100% in general fund senior community services department. Overall, the inland parks budget is slightly under funded with revenues and transfers in less than expenditures and transfers out by (\$262,120). The ending fund balance

is budgeted at \$88,641 which is less than one month of operating expenditures using 13/14 budget figures.

The Coastal Parks Fund maintains approximately 2.79 miles of beach, one rv park and several picnic and recreation facilities. There are also two separate sub-funds, beach improvement fund and pier fund which retain their own fund balance and are self-sustaining. Excluding beach improvement fund and pier fund, total revenues and transfers in are budgeted at \$1,901,870, which is \$184,000 more than the previous year.

Appropriations and transfers out total \$2,364,781 down by (\$28,736) compared to prior year. It should be noted that the \$75,000 of budgeted contingent appropriations is eligible for expenditure only if revenues exceed 2012-2013 actual levels. The ending fund balance is budgeted at \$111,328, which is less than 1 month of operating cash flow using 13/14 budget figures.

The coastal parks capital improvements fund is funded by 33.33% of the space rentals and is designated for expanding and improving the coastal parks. The coastal parks capital improvements fund has appropriations and transfers out of \$488,060 and ending fund balance of \$77,380. The pier fund has appropriations and transfers out of \$244,620 and ending fund balance of \$1,134.

This concludes the section on budgetary details and highlights on each operating fund in the operating funds group.

Budget Detail of the Debt Service Funds Group

According to the statement of indebtedness on page 376, total indebtedness at the beginning of this budget year (principal outstanding) is \$111,024,430. No new debt is anticipated to be issued during the 2013-14 budget year.

Revenue sources for debt service requirements are property taxes and investment and interest income. Total revenues for 2013-2014 are \$11,529,000. The property tax rate (for debt service only) is .054325. Debt service requirements appropriated are \$11,091,487 increased from the previous year by \$762,155.

The county's annual debt service as a percent of the sum of general fund appropriations plus transfers out and debt service appropriations is 13.17%. Last year this ratio was 12.08%. This measure indicates that the County is in a good position as to credit standing and the debt burden does not exceed the community's ability to repay. In general, a debt burden is considered high when debt service payments represent 15-20% of the combined general fund operating and debt service fund expenditures and transfers out.

Other factors, such as a stable tax base and the demonstration of a trend of solid financial position, also affect this ratio. The last credit rating done was February 2013. The county was affirmed on its AA+ rating by Standard & Poor's and its Aa2 rating by Moody's.

The budgeted ending fund balance is \$4,562,433. The county makes four payments per year: November, February, May, and August. The largest principal payment is made in February. To ensure that the funds are on hand when the February principal and interest payments are due, the County plans to slowly increase the fund balance to equal the subsequent year's

February debt service requirements. The budgeted ending fund balance represents 58.71% of the February 2014 debt service requirements.

Budget Detail of the Capital Projects Fund Group

The capital projects fund is not subject to annual budgetary limits because each project has its own budget that usually overlap fiscal years. The capital projects fund is a multi-year funding plan and is not controlled by the annual appropriations budget. There are three sub-funds within the capital projects fund that are used to account for the specific funding sources. The general capital projects fund, department 1901, is used to track individual projects mostly funded with general fund monies via transfers in. Department 1915 capital projects are used to track projects funded mostly by certificates of obligation series 2004 monies. Department 1917 capital projects are used to track projects funded mostly by certificates of obligation series 2007 monies. Project budgets still in progress total \$12,126,963.

Please see pages 358-371 for a short list by department of the projects in progress. For a detail listing of the individual projects, please contact the county auditor office.

Budget Detail of the Other Funds Group

There are three types of funds in the group of other funds: the special revenues fund, the grants fund, and the self-insurance fund. The budgets of these funds are controlled at the fund level by Commissioners court.

The Special Revenues Fund accounts for numerous sub-funds that are considered “special” because the monies can only be spent on the designated special purposes as ordered by Commissioners court or required by statutory law or contractual stipulations. Each sub-fund retains its own fund balance. The sub-funds are organized and presented by spending authority or like-kind purposes. All sub-funds are summarized on the *Special Revenue Funds Summary* shown on page 212 according to spending authority or like-kind purposes.

Total combined revenues and transfers in are budgeted at \$6,523,149, an increase of \$1,308,852 as compared to the 2012-13 budget. Combined total special revenue fund appropriations and transfers out increased by \$3,101,171, for a total of \$15,809,944, providing additional resources for specific public purposes. Combined budgeted ending fund balance is \$160,044 as compared to last year’s balance of \$580,293.

The special revenue fund is increasingly becoming more significant to county operations. When legislation requires certain fees collected be spent for specific purposes, this revenue in the past was not considered a major operating fund. Because of the amounts involved and the growing interest in specific legislation, this fund may be moved from the other funds group to the operating funds group in future budgets.

Grant Funds are presented beginning on page 352. Separate sub-totals are shown for the main grant fund and the TJJD juvenile grant fund. Grants funds are not subject to annual budgetary limits. Each grant is subject to its own contractual budget and time frame which usually overlaps the county’s fiscal year.

The sum of all contracts in the main grant fund including pending applications is \$7,769,179. Out of this total, grant revenues amount to \$7,676,764, or 98.81%. The county has other

grant funding available which is not included here, but instead is accounted for in the general fund as intergovernmental revenues.

The TJJD juvenile grant fund shows contract amounts totaling \$2,610,546, an increase of \$107,940. Of this amount, grant revenues amount to \$2,610,546, or 100%.

Grant schedules are presented to facilitate the budgeting of inter-fund transfers and are presented on page 412. The areas where the county is focusing future efforts to obtain grant funding are drainage, parks, and economic development. Upgrading colonias will continue to be a priority.

The Self-Insurance Fund is an enterprise fund and contains three separate sub-funds: workers compensation; property, auto, and general liability; and group health insurance. The county is self-funded for general liability, professional liability and law enforcement liability subject to state law limitations under the tort reform act. The county limits its risk on health insurance claims by having individual stop-loss coverage at \$300,000. The county has commercial insurance policies to cover most risks for property and auto losses. For a complete list of insurance policies in force please refer to page 462.

The workers compensation fund covers direct expenses of pre-1995 cases. For cases originating in 1995 and thereafter the county has outside coverage. The outside insurance coverage is through an insurance pool administered by the Texas Association of Counties (TAC). Each operating fund and any special revenue fund with personnel are assessed a self-insurance premium by this workers compensation fund.

Commercial insurance policy premiums are then paid to TAC from the workers compensation fund. Commercial insurance premiums paid to TAC are budgeted at \$360,000, the same as last year's budget. The ending equity fund balance is budgeted at \$332,681.

The property, auto and general liability fund is used to pay commercial insurance policy premiums, deductibles, civil settlements (self-insured) and disaster property losses. Operating funds are charged self-insurance premium fees that are recognized as revenue in this enterprise fund.

Every year the county attorney reviews and estimates the contingent liability on pending lawsuits. The commissioners court determines a funding plan for these estimated liabilities and accrues this expense to a balance sheet liability account. The county takes an affordable conservative approach to funding these estimated liabilities and is currently compliant with that policy.

The self-insurance premiums charged to the operating funds were the same as previous years for a total of \$1,538,506. The budgeted ending equity fund balance, which is separate from the estimated liability account, is \$224,358 decreasing by (\$104,729) compared to previous year. Total appropriations are the decreased \$100,000 as compared to last year for a new total of \$1,539,000.

The health insurance fund was set up when the county went self-insured on its group medical coverage in the early ninety's and had been dormant until October 1, 2001 when the Commissioners court went self-insured again for group medical coverage.

The Commissioners court determines the premium rates charged to both employees through payroll deductions and what the employer pays, that being Nueces county. All premiums

charged (employer and employee paid) are deposited into this health insurance fund. Medical claims, prescriptions, underwriter's insurance and administration fees are then paid for from this fund.

By going self-insured, the Commissioners court is anticipating better control of the costs and preventing wide fluctuations in the future. Group health expenses were budgeted the same as last year for a total of \$6,547,000. Budgeted ending equity fund balance is \$105,260. This includes full accrual of the 90 days runoff claims. The plan benefits remained the same as last year where changes required by the health care reform act, i.e., dependents covered until age 26, mental health, pre existing exclusionary clauses, etc. were added. Premiums charged to employees stayed the same as last year.

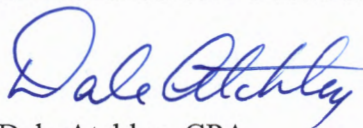

Having completed the budgetary analysis on the other funds group, this completes the budgetary analysis on all county funds.

Acknowledgments

This budget adopted by the Nueces County Commissioners Court establishes the legal spending limits for 2013-2014. The county has in the past and plans to continue in the future its conservative approach to monitoring expenditures to ensure that fund balances stay strong at the 25% general fund policy level. Good management practices contributed toward the two credit rating agencies deciding to reaffirm the county's "double A" ratings (AA+ and Aa2). As Standard & Poor's stated, "[Our] stable outlook also reflects our expectation that county officials will maintain reserve levels at a strong level." Faced with slowing economic conditions the commissioners court with Samuel L. Neal, Jr., as the county judge was able to find the way to adopt a budget with a small decrease in the tax rate, no lay off of employees, no higher health insurance costs and maintain total expenditure funding levels to keep county services at historical levels.

My thanks goes to Judge Neal and county commissioners, Mr. Steve Waterman, Director of Commissioners Court Administration, county auditor staff and all other county officials for a good job done. And lastly, for their leadership, guidance and support from the Honorable State District Judges, I am most thankful.

Respectfully submitted,

BUDGET POLICY & PROCEDURES

The overall goal of the County's budget policy and procedures are to establish and maintain effective management of the County's financial resources. Formal policy statements and major objectives provide the foundation for achieving this goal. Accordingly, this section outlines the policies and procedures used in guiding the preparation and management of the County's overall budget and the major objectives to be accomplished.

The County follows the policies below in establishing the budget.

Guidelines

The budget will be prepared in such a manner as to facilitate its understanding by the citizens of the County, elected officials, and employees.

Financial information systems will be maintained to monitor operations of the County on an ongoing basis. Also, the accounting and financial reporting systems will be maintained in compliance with current generally accepted accounting principles.

The Auditors' Office will review all departmental budgets to identify possible increases or reductions needed, and will analyze all budget change requests in detail.

Interim Financial Reporting

Commissioners Court will be provided with a Monthly Financial Report showing the financial position of the County at a given time. This report will also be included on the County's webpage for the citizens of the County and all Departments to review

Capital Improvement Policies

The budget will provide for adequate maintenance of capital, infrastructure, equipment, and for their logical replacement. The County will establish an appropriate mix of general fund transfers, state grant funds, and general obligation debt in the funding of capital projects.

Debt Management Policies

The County will confine long-term debt to capital improvements or projects that cannot be financed from current revenues. The County will not use long-term debt for current operations. The County will strive to have the final maturity of general obligation bonds at, or below thirty years, and within a period not to exceed the estimated useful life of the project.

Fund Balance Policies

The County will strive to maintain an unreserved, available fund balance of approximately 25% of budgeted revenues for the General Fund. Fund balance for Debt Service funds will be maintained according to debt covenants. Fund balance for Special Revenue funds will be maintained to ensure a positive fund balance for the individual funds.

Investment Policies

These Investment Policies apply to the investment of short-term operating funds of the County in excess of those funds required to meet current expenditures. Topics included in the investment policy are quite detailed and include information of Strategy, Scope, Objectives and Priorities, Responsibility and Control, Reporting, Institutions, Instruments, Procedures, Collateral and Safekeeping, and Policy Review and Amendments. The complete policy can be reviewed in the separate Investment Policy Manual maintained by the County's Investment Committee and the Commissioners Court.

Capital Asset Procedures

Capital assets include buildings, roads, bridges, equipment, computers, furniture, and vehicles. Nueces County's monetary criteria is \$5,000 or more and with a useful life of more than one year. Once purchased, all capital assets are maintained in the physical inventory until disposed.

The County follows the procedures below in establishing the budget.

Nueces County's fiscal year begins on October 1st each year and ends on September 30th. The budget process for each upcoming fiscal year begins in April with the preparation of budget workpapers which are distributed to all County Departments. Each department is asked to project their financial requirements for the upcoming year. The budget workpapers are a guide for the initial budget requests.

Departmental annual budget requests are then submitted by the Department or Agency Head to the County Auditor in June. The County Auditor compiles the initial requests and forwards these request to Commissioner Court Administration Director. Budget hearings are held for each department requesting a hearing. Commissioners Court, including the County Judge and four County Commissioners oversee the Budget Hearings. These hearings give the Department Heads the opportunity to discuss with Commissioners' Court any changes in their budget, and items that are a priority. The public is invited to attend all budget hearings, which are posted according to the Open Meetings Act.

In conjunction with compiling departmental budget requests, the County Auditor prepares an estimate of available resources in each fund for the upcoming fiscal year based on trend analysis and current year to date projections. Expenditures budgeted in the various funds may not exceed the fund balances as of the first day of the fiscal year plus the anticipated revenue for the year as estimated by the County Auditor.

In August, the County Auditor prepares the proposed annual operating budget to be presented to the Commissioners Court for their consideration. The budget represents the financial plan for the new fiscal year. Public hearings are held on the proposed budget.

The Commissioners Court must adopt an annual operating budget by a majority vote of the Commissioners Court before October 1st. Accountability is then required for operations to remain within available resources.

The department is the legal level of budgetary control. Total expenditures cannot exceed the final appropriation once the budget has been adopted. Commissioners Court can amend the total appropriations for an individual department. To comply with expenditure limitations, when one department's total appropriation is increased, another department's

appropriation must be reduced by an equal amount. Commissioners Court may also approve the transfer of appropriations within funds. All such amendments require Commissioners Court approval.

The County uses funds to report its financial position and results of its operations. Funds for budget purposes are classified as Governmental and Fiduciary. Governmental Funds are used to account for the majority of the County's general activities, including the collection and disbursement of earmarked monies (Special Revenue Funds), the acquisition or construction of general fixed assets (Capital Projects Funds), and the servicing of general long-term debt (Debt Service Funds). The General Fund is used to account for all activities of the County not accounted for in any other fund.

Annual budgets are legally adopted for the General Fund and Debt Service Fund. Budgets for Special Revenue Funds are established pursuant to statute guidelines, and budgets for Capital Projects are established on a project basis.

All transactions affecting the acquisition and disposition of anything of value by the County are recorded in detail in the accounting system adopted by the Nueces County Auditor.

The budgets of general government type funds (i.e. General Fund and Special Revenue Funds) are prepared on the modified accrual basis. Briefly, this means that obligations of the County are budgeted as expenditures, but revenues are recognized only when they are measurable and available.

Encumbrance accounting is used for all funds. Encumbrance accounting means that an estimated cost is recorded on the books at the time of an order of goods and services so that all obligations are booked. When the actual cost is known, it is booked, and the encumbrance is reversed. All encumbrances lapse at year-end for all budgeted funds.

The Comprehensive Annual Financial Report (CAFR) shows the status of the County's finances on the basis of "generally accepted accounting principles" (GAAP). The CAFR and the budget are prepared on a basis consistent with GAAP using the modified accrual basis.

Grants are restricted for specific purposes. Because grants are presented to Commissioners Court throughout the year and some run on different fiscal years, the grant budgets and accountings are maintained separately from this document.
