Ladies and Gentlemen:

As adopted by the Commissioners Court on September 05, 2012, the Nueces County budget for 2012/2013 fiscal year is herein submitted. Under the leadership of County Judge Loyd Neal and county commissioners Mike Pusley, Joe Gonzalez, Oscar Ortiz and Joe McComb, the commissioners court is continuing the plan created five years ago to make county government: (1) more transparent; (2) have attainable and realistic budgets to enhance accountability; (3) recognize employee service and dedication by funding the continuance pay policy for the fifth year in a row, and (4) make county government more efficient and effective by establishing procedures that are in compliance with statutory requirements and utilizing technology to maximize performance.

Significant items included in this budget are:

- This budget contains a tax increase as compared to the effective tax rate. Commissioners court adopted the same tax rate as the 2010/2011 tax rate of .355259 per \$100 value. In comparison to the effective tax rate of .343101 however, the adopted tax rate is higher by 3.54%. The separate components are: general fund operating .292786, road fund operating .004260 and debt service .058213.
- Property values increased as compared to the previous year and are expected to continue to grow. Excluding property values that are subject to a tax ceiling (such as for taxpayers 65 years old and older) and using the "lower" valuations for property under protest, the total net taxable value (NTV) is \$18.710 billion. Last year the NTV was \$18.035 billion. The gain in value of \$675 million was approximately 3.74%.

- In preparing this budget, the following issues were identified: continuing the same service levels, countering cuts in state and federal funding, adapting to higher pension costs, funding pay increases for law enforcement according to collective bargaining agreement, providing a cost of living pay increase (the last one approved was in FY 2008/2009), keeping the same tax rate, and maintaining the fund balance at 25% of the sum of revenues and transfers in.

The decisions made to address these issues were:

1. Provide salary increases for employees including a 1.5% cost of living increase for law enforcement personnel under the Nueces County Sheriff's Officers Association Collective Bargaining Agreement and 2.0% cost of living increase for all other county employees. There is also a continuance pay increase for approximately 90 employees. Continuance pay is a 2.5% pay increase every 3 years of service.
2. Reclassify seventy positions including thirty-six attorney positions and ten social worker positions at a cost of \$158,000.
3. Maintain non-salary expenditures at or near the same level as the current year.
4. Provide no new program funding.
5. No replacement funding for programs that lost all or a portion of state or federal funding.
6. Provide funding for right of way costs related to interstate 69 construction.
7. Continue the 30 day hiring freeze (with exceptions).

Other than the changes discussed above, the remainder of the budget for the operating funds compared to last year's budget remained materially the same for both revenues and appropriations. We project actual performance at the end of this new fiscal year to be favorable in comparison to this adopted budget.

2012-13 Budget Summary

Net property tax valuations are up and as of January 1, 2012 valuations are higher by approximately 3.74% for a total net taxable valuation of \$18.710 billion. New growth was \$277.715 million. For further information on property valuations for the past twenty years see the schedules that begin on page 455.

Total revenues for all funds are budgeted \$112.50 million. Compared to the 2011-12 Budget of \$113.04 million as shown on the *Condensed County Budgets* table as follows, the revenues are lower by \$0.54 million or 0.48%. Total resources available in this budget are \$171.57 million. The prior year budget had \$173.91 million total available resources. Total available resources comprise beginning fund balances, revenues, and transfers in. It is estimated that the county will begin this fiscal year with \$50.37 million in fund balances – all funds. By law the total of budget allocations cannot exceed the total of resources available. Again, for fiscal year 2012-13 the total resources available are \$171.57 million.

The total appropriations budget, excluding transfers out, for all funds is \$141.88 million. The appropriations budget is higher by \$0.40 million or 0.28% as compared to the 2011-12 budget of \$141.48 million. Grand total FY 12/13 allocations, which include transfers out and ending fund balances for all funds, is \$171.57 million, a decrease of \$2.34 million as compared to FY 11-12. Budgeted ending fund balances are \$20.99 million, a decrease of 12.79% compared to last year. In summary, resources available were allocated toward appropriations and ending fund balances in such a way that appropriations will cover anticipated higher costs and fund balances remain holding strong.

Revenues show a decrease of \$(0.54) million as shown on the *Change in Revenue Budgets All Funds (FY 12/13 to FY 11/12)* on the next page. This net decrease is due to a reduction in state and federal grant funding. In recent past years the county received significant funding for infrastructure improvements in colonias areas which has ended.

Sub-total Other Funds	25.92	23.12	(2.80)
Total Revenues \$	113.04	112.50	(0.54)

The increase in revenues (3.74% higher) for the operating funds is mainly due to a property tax increase. Another resource showing higher amounts is the commission for collecting state sales tax on motor vehicles. The budgets for mostly all other revenues stayed the same as last year.

Capital projects show a decrease in revenues for the fact that no new funding for major projects was obtained. The most recent project was a \$7.9 million loan from the State Energy Conservation program to finance energy efficiency systems. This project completed last fiscal year.

Grant income is budgeted lower. In the future the county foresees increased funding related to public health.

Overall, revenues are comparably the same as last year, except for property taxes, and are projected to have stable performance if not better.

In the table, *Change in Appropriations Budgets – All Funds (FY 11/12 to FY 12/13)*, it shows \$0.40 million more (0.28% higher) appropriations over last year. Overall there is minimal change in total appropriations. The increases in total operating, debt service, special revenue, and self-insurance funds are offset by the decreases in grants and capital projects funds. Both capital projects and grants have lower appropriations due to less funding available.

As to the operating funds, an increase of \$1.89 million (2.19% higher) was budgeted. A 2% cost of living pay increase is the biggest reason for this increase. The last cost of living pay increase occurred in FY 2008/2009.

In summary, this budget is the basis for controlling expenditures for the new fiscal year. Total appropriations will provide for the same service levels and includes a \$1.2 million contingency appropriation for the general fund.

Revenues by Fund Group

Operating Funds

There are seven governmental funds which the county refers to as operating funds, of which, the general fund is the largest and the main operating fund. The operating funds are listed on the *Summary of Projected Fund Balances for 2012/2013 Budget*, page 18.

The proportion of property tax revenue including penalties and interest on delinquent collections as a percent of total revenues (operating funds only) has been inching forward and is becoming a larger component of total revenues as shown below.

	Property Tax Revenue (millions)	% Tax Revenue of Total Revenue	Total Revenue
Actual FY 09/10	\$55.82	69.65%	\$80.15
Actual FY 10/11	\$53.77	71.52%	\$75.19
Estimated Actual FY 11/12	\$54.80	72.28%	\$75.81
Budget FY 12/13	\$56.95	72.60%	\$78.44

Current property taxes are budgeted using a 95.0% collection rate. The actual collection rate is higher, but a portion of collections is committed to a tax increment financing zone and deferred payment plans. Please see schedules in the back of this book on property valuations and effective tax rates for further information related to property taxes.

The total revenue budget for the operating funds has a slight increase of 2.83 million as compared to FY 2011/2012 budget. Budgeted property tax revenues increased by \$1.989 million in the general fund for a slight tax increase as previously mentioned. Revenues from property taxes can only increase in two ways: (1) an increase in the tax rate as defined by Truth-In-Taxation or (2) the community experiences new construction from either the commercial or residential sectors. This year’s property tax budget benefited from both of these two events.

Considering the predominate reliance on property tax revenues for funding operations and that the other revenues are staid, brings into focus the importance of property taxes for funding the county’s operations.

Debt Service Fund

Property taxes are separately levied to meet debt service requirements. The only other revenue source is investment income, which is minimal. The tax rate was set at 0.058213 the same as last year’s rate to generate \$10,681,375 in current taxes to meet debt service requirements that total \$10,994,488 leaving a budgeted ending fund balance of \$4,065,787.

Capital Projects Fund

The capital projects fund is reported along with the other budgets, but officially is not part of the annual budget adopted by commissioners court. Instead project length budgets are adopted separately. Projects that are in progress are budgeted at \$148.07 million, an increase of \$1.426 million over last year. This increase is due new projects that were added, such as the commissioners precincts and county judge capital projects funds and the coastal parks capital improvements project.

Other Funds

There are three funds categorized as other funds: the special revenue fund, grant fund and the self-insurance fund. These funds are not considered as operating funds because their use is restricted due to legislation, contractual agreements or commissioners court action. In addition, much of the funding recorded in the special revenues fund and grants fund is precarious and therefore not suitable for financing ongoing operations.

The special revenues fund is comprised of many sub-funds which retain their own ending fund balances. In other words, the fund balances at the sub-fund level carry-over from year to year. For presentation purposes, the sub-funds are totaled together according to the same legal spending authority or like-kind purposes. For example, state law gives the spending authority of asset forfeiture funds to the applicable law enforcement agency and district attorney. The asset forfeiture funds are not under the control of commissioners court. The asset forfeiture funds are grouped together because of like-kind purpose. The largest sub-fund groups are those funds under the authority of county clerk which has an appropriations budget of \$3,316,873. The second largest sub-fund group presented by same legal spending authority is the commissioners court funds with a total appropriations budget of \$2,357,629. Examples of some of the sub-funds under commissioners court control are: courthouse security fund, RTA street improvement fund and the LCS prison subcontract fund. Please see page 272 for a summary on the special revenue funds. Total combined revenues are \$4,465,495 for the special revenues fund for the 12/13 budget, a decrease of \$38,449 as compared to last year.

Grant funds continue to be a vital source of revenue to the county. Officially, grant activity is not adopted as part of the annual budget because separate program budgets are adopted instead, which overlap the county's fiscal years. For information purposes grant activities are herein included. As compared to prior year, grant fund revenues reflect a decrease of \$(3.14) million. This includes outside matching sources and in-kind contributions. Please see a list of all the grants considered in preparing this budget on page 400.

The self-insurance fund revenues come from premiums charged to the operating funds for workers compensation, property and general liability and group medical insurance. As expected, when revenues in the self-insurance fund go up, operating fund expenditures will also increase. The county is not 100% self-insured. The self-insurance fund purchases commercial policies, which when prices go up also triggers premium increases to the operating funds. The self-insurance fund has to charge premiums to the operating funds large enough to cover the sum of anticipated costs in those areas where the county is self-insured and to pay for outside commercial policy premium costs plus deductibles. The county has an excellent safety record for the past eight years and is experiencing low premium costs in workers compensation. Premiums charged to the operating funds for general liability have increased due to higher windstorm coverage. A schedule of insurance coverages for property and other risks for which commercial policies are obtained is presented in the back of this book on page 464. Group medical insurance premiums remained the same as last year for both the county and employees.

This section concludes analysis on revenues until later in this report where the general fund and road and bridge fund are broken out in further detail. Overall, the county's revenues are consistent with reliance on property tax revenues. Actual performance at the end of this fiscal year is expected to be better than the amounts budgeted herein.

Appropriations – Operating Funds Group

The total operating funds budget (appropriations only, without transfers out) is 2.19% higher or \$1,890,366 higher than the 2011/2012 budget. The following table, *Operating Funds-Appropriations by Expense Type*, presents a year-to-year budgetary comparison by expense type. For a list of the funds that comprise the operating funds group please refer to the *Summary of Projected Fund Balances for 2012/2013 Budget* on page 18.

Total Operating Funds - Appropriations	\$86,361,953	\$88,252,319	\$1,890,366	2.19%	100.00%

Personnel costs are budgeted higher by \$1,700,059, which is the net effect of several items. Some of the items are: law enforcement cost of living pay increases of 1.5% in accordance with collective bargaining agreement, a 2% cost of living increase for all other county employees, a 2 ½% pay increase for approximately 90 employees eligible for the 3 years of service continuance pay, reclassification of seventy positions, higher pension costs, and the previously imposed 30 day hiring freeze.

Office expense had to be increased for the rising cost of paper and computer supplies.

Telephone and utilities was slightly increased for higher oil prices that come across the utility bills as surcharges. After installing new energy efficiency systems, there will not be a budgetary impact because the cost savings will go toward debt repayment. The budget for telephone and utilities has just a little leeway left for future price increases.

Other services and charges decreased by \$300,679 which is attributed to \$375,000 going toward EMS services previously paid for by the Nueces County Hospital District. The difference of \$74,321 is the net effect of several other small changes.

Capital outlay was increased to cover inflationary prices of the cost of machinery and equipment and replace aging vehicles.

Contingency appropriations is not an expenditure category in and of itself. It is strictly used for budgetary purposes where an appropriation is set aside for unforeseen expenditures. Commissioners court must approve all transfers from this category. The funding available for unforeseen expenditures was increased by \$245,332.

Explaining the reasons for the changes in the budget based on the budget categories or rather by type of expense will also apply when looking at the budget changes by governmental function. Below is a table comparing 2012/2013 appropriations budget (operating funds only) to 2011/2012 budget by function of government.

Operating Funds – Appropriations sorted by Governmental Function 2011-12 Budget vs. 2012-13 Budget

Total Appropriations	\$86,361,953	\$88,252,319	\$1,890,366	2.19%	100%

The governmental functions with the largest changes are law enforcement showing an increase of \$713,207, administration of justice with an increase of \$407,840, general government with an increase of \$356,957, health, safety, and sanitation with a decrease of \$(341,197), and finally the governmental function of parks and recreation shows an increase of \$308,549.

The governmental function of law enforcement has the largest change of an increase of \$713,207 which is due, in part, to the cost of living pay increase and the thirty-six attorney positions in the district attorney office that were reclassified.

Part of the increase in administration of justice is due to a new position that was created in the medical examiner office.

The governmental function of general government increased in the following three areas: cost of living pay increases, reclassifications, and contingent appropriations.

The large decrease in health, safety, and sanitation is due to the \$375,000 EMS cost passed over to the county previously paid for by the Nueces County Hospital District.

The increase of \$308,549 in parks and recreation is mostly due to an increase in appropriations in the coastal parks fund in the amount of \$187,285 and inland parks which had an increase in capital outlay to replace equipment.

In summary, appropriations for the operating funds increased by 2.19%. The total amount budgeted for operating funds appropriations is \$88.25 million. The fiscal impact from increased personnel costs, higher property insurance costs, mandated cost increases, and other market forces have been addressed and mitigated in this budget. With this budget, county services as compared to prior year, have level funding.

Fund Balances

Ending fund balances for operating funds are budgeted at \$14.87 million for fiscal year 2012-13. Compared to last year this is higher by \$0.09 million. Last year the budget for ending fund balances was \$14.78 million. Budgeted ending fund balances for all funds is shown on the *Summary of Projected Fund Balances for 2012/2013*, page 18 and are budgeted at \$20.99 million.

The county's financial policy guidelines (see page 9) on minimum general fund reserves establishes the minimum to be at least twenty-five percent of general fund budgeted revenues and transfers in. Applying this guideline equates out to \$18,373,139 which puts the budgeted ending balance short by \$4,430,366. A budgeted ending fund balance is not the same as the actual ending fund balance. It is projected, that the actual ending fund balance will meet the guidelines because actual expenditures historically are less than budgeted appropriations and actual revenues are more than budgeted revenues. For the past ten years the general fund actual revenues are 101% of budgeted revenues, and actual expenditures are 97% of budgeted appropriations resulting in an ending fund balance of more than what is budgeted.

Fund balances in the operating funds sit in the upper ranges recommended by bond rating agencies.

Employee Positions

This budget includes position control over all county employees. Personnel cannot be hired without a position budgeted and approved by commissioners court. In addition, each employee position automatically freezes upon vacancy as ordered by commissioners court (see page 5 for the Order of the Nueces County Commissioners Court Affecting Budget Authority for Employee Positions).

There are a total of 1,186 budgeted positions, a net increase of 16 positions compared to last year. Most of these positions are full time equivalents but not all. Part-time positions and shared positions are counted as whole positions in each department for position control purposes.

The net change to the county’s labor force by governmental function is as follows:

Transferred employees have no financial impact on the bottom line, but do reflect County management’s assessments and priorities. No positions were transferred for the fiscal year 2012-2013. Transfers are not counted as additions or deletions in the table, *Employee Position Changes*.

Each department’s budget includes a detailed employee position schedule along with their financial budget if that department has employees assigned. The table below shows a multi-year comparison of county staffing levels for each government function. Again there are 1,186 positions budgeted for the 2012/2013 fiscal year, increased by 16 positions. This count does not include the 19 positions allotted to the city/county health department or the 3 positions budgeted for vector control. The county is reimbursed by the Nueces County Hospital District for 100% for these departments.

Personnel costs comprise 61.21% of total operating appropriations. For the second time regular salary expenditures are budgeted at less than 100%. The general fund personnel budget has been reduced by \$320,066 for expected savings from the 30-day freeze. Monitoring personnel costs will be closely done because of the built-in budgetary impact.

Budget Detail of the Operating Funds Group by Fund

The county categorizes all the governmental funds in four groups: operating funds, debt service funds, capital projects funds and other funds. Budgetary changes and highlights are presented in this section on each fund separately that are part of the operating funds group.

The General Fund is the main operating fund in that it can be legally used for any activity or governmental function. The total budget is higher by 3.74% or \$2,881,026 for a total of \$79,991,411. The general fund subsidizes the road & bridge fund, stadium & fairgrounds fund, inland parks fund and coastal parks fund, airport fund and capital projects fund and provides most of the local match on grants. These subsidies are budgeted as transfers out. The 2012-2013 budget for transfers out is \$6,802,780, which is \$1,482,302 higher than the previous year. Appropriations are \$73,188,631 which is \$1,398,724 higher or 1.95% higher than the previous year.

General fund revenues and transfers in increased by \$2,985,987 or 4.24% for a total of \$73,492,557. Total budgeted appropriations and transfers out exceed total revenues and transfers in by \$6,498,854 reducing the fund balance reserves for budgetary purposes. As mentioned earlier, after the fiscal year has ended, actual activity when compared to the budget is traditionally better and thus, the actual ending fund balance is more than what the budget has.

The general fund revenues and transfers in are conservatively budgeted at \$73,492,557 with the expectation of actual revenues to come in around 101% of the amount budgeted. The general fund tax rate is 0.292786 per \$100 property valuation. Property taxes comprise 76.36% of total general fund revenues and transfers in. Last year, property taxes constituted 76.78% of total general fund revenues and transfers in.

The following table, *General Fund Revenues and Transfers In Budget Comparison*, shows the current year budget compared to 2010-11 Actual and the 2011-12 Budget

Most of the large changes made to the general fund revenue and transfers in budget for 2012-2013 have been previously explained elsewhere in this report. To be brief, the significant changes are summarized below:

Budget to Budget changes in the General Fund revenues:

Property tax increase and new construction values.....	\$1,989,240
Motor vehicle services –commission for collecting state sales tax on sales of motor vehicles is on the rise.....	420,000
Housing inmates/juveniles – Increased revenues for housing federal inmates and outside county juveniles.....	276,000
Interest and investment income – Interest rates declined further as compared to prior year.....	(20,000)
Transfers-in – More funds available from sinking fund for capital outlay.....	202,747
All other categories less than \$100,000 individually.....	<u>118,000</u>
Total Budget to Budget Change General Funds Revenues	<u>\$ 2,985,987</u>

Further comment on the increase in motor vehicle services; this revenue stream previously flowed directly to the road and bridge fund. Due to a change at the state level, these monies now go directly to the general fund. To keep the road and bridge fund budget neutral, the general fund transfers out these monies to the road and bridge fund. Overall, the general fund revenues remain steady and strong.

Total expenditures and transfers out increased by 3.74% or in dollars by \$2,881,026. The largest item contributing to this increase was in personnel costs.

Again most of the large changes made to the general fund expenditures and transfer out budget for 2012-13 have been explained elsewhere in this report. The transfers out include the transfers out to the road and bridge fund for the election commission for sales tax on motor vehicles.

Using a bar chart to compare the budget changes (excluding personnel costs) in dollar amount order makes it easier to see the changes made. Personnel cost is the largest expenditure and comprises 60.40% of total general fund appropriations and transfers out. This category is eliminated in the bar chart for displaying purposes.

As the bar chart shows, the expenditure budget was held the same as prior year in most categories.

For further information on transfers, a complete schedule of all transfers for all funds is presented on page 24.

Recapping, the General Fund 2012-2013 budgeted revenues and transfers in is \$73,492,557 and expenditures and transfers out is \$79,991,411 leaving a budgeted ending fund balance of \$13,942,773. The budgeted ending fund balance represent 2.09 months of cash flow using 12/13 budget figures. Considering that actual performance is usually favorable when compared to the budget, the general fund ending fund balance at 9/30/13 is projected to be in compliance with the 25% minimum fund balance policy.

The Road & Bridge Fund comprises three departments: road & bridge, engineering, and road right of way. The road and drainage repair funds were phased out last fiscal year. Their accumulated fund balances along with additional funding budgeted are now accounted for in the special revenues fund and each precinct has their own special revenue fund. The road & bridge and engineering departments are the main departments. The following tables cover these operations and the road right of way fund.

The primary source of funding for the road and bridge fund comes from a county \$10 motor vehicle registration fee and allotments from the State of Texas. Property taxes provide 12.33% of the funding for a total of \$827,709. Total revenues and transfers in as shown on the following table, *Road & Bridge Revenues and Transfers In Budget Comparison* are \$625,755 more than the prior year budget.

This increase is due to two categories; property tax and transfers in. As previously explained, due to a change made at the state level the commission for collecting the state sales tax on the sale of motor vehicles is being moved over to the general fund. This change will take four more years to implement. To compensate the road fund for this loss in revenue, the general fund has increased transfers to the road and bridge fund. The other increase in the budget is from property taxes which is due to a tax increase and new construction.

The 2012-2013 tax rate for Farm-to-Market, Lateral Road & Flood Control is .004260 per \$100 valuation which is higher than the effective tax rate of 0.004031. The road and bridge fund has few revenues available which is why it is subsidized by the general fund.

The total road and bridge, engineering, and right of way expenditures and transfers out are summarized in the table, *Road & Bridge Fund Expenditures and Transfers Out Budget Comparison*. Expenditures and transfers out for 2012-13 total \$8,060,990 and is \$177,469 more than 2011-12. The net increase in expenditures is due to an increase in contingency appropriations from the road right of way department. Major highway construction is being undertaken by the state of Texas which requires shared funding from the county.

Annual appropriations are necessary to maintain 400 miles of paved roads, 300 miles of caliche roads and 249 bridges. The county's roads and bridges are in excellent condition since 2006 when a \$55.33 million rehabilitation program was completed. The road rehabilitation expenditures which total \$42.54 million are being depreciated over a period of on average eighteen years. It is the county's goal to keep these roads and bridges in their "as improved" condition. The challenge of this and future budgets is to synchronize the availability of funds and hence keep the maintenance budget up with the pace of deterioration from use plus maintaining a minimum 25% fund balance.

In summary, the road and bridge fund appropriations and transfers out are greater than revenues and transfers in by \$1,346,786. Budgeted ending fund balance is \$419,248, which is less than one month of operating cash flow using budgeted FY 12/13 expenditures and transfers out.

The Stadium & Fairground Fund was established after opening the new Richard M. Borchard Regional Fairgrounds in January 2007. A professional firm is contracted to manage the stadium and fairgrounds. This year the transfers to stadium & fairground funds is \$1,050,555, the same as last two years.

Total appropriations are budgeted at \$2,392,937. The ending fund balance is budgeted at \$118,783 which shows an increase of \$104,844 more than the previous year.

It is important to note that \$1,000,000 of appropriations are contingent upon receiving other income from fairgrounds or other financing sources.

The Law Library Fund is self-sustaining with revenues coming from civil case fees, user fees and miscellaneous other revenues. Revenues are budgeted at \$177,850 and appropriations are budgeted at \$221,663 with a difference of \$43,813. The budgeted ending fund balance is \$231,466 and is lower by \$6,528 as compared to last year.

Airport Fund accounts for the county airport located outside the city of Robstown. Total resources are split with 48% coming from hanger rentals, investment income, and fuel sales and 52% from transfers in. The general fund will transfer \$60,000 which is the same as previous year. The revenues budget total \$71,208, which is \$22,543 more than last year. Appropriations and transfers out are budgeted at \$188,615, a decrease over last year's budget by \$(3,927). The ending fund balance is budgeted at \$10,628. The airport has installed new self-serve fuel dispensers which went into full operation February 2010 and with funding from TXDOT five new hangers were built. Revenues are anticipated to increase as a result of these changes. The transfer in from the road and bridge fund is compensation for the use of airport land to store road materials as per federal transportation regulations.

The Inland Parks Fund covers operations of the county's parks not located on the coast. There are thirteen county parks included. For a list of county parks see page 463. The majority of funding for the inland parks fund comes from the general fund as transfers in. There is also a minimal transfer to inland parks from the stadium and fairgrounds fund.

Transfers in from the general fund is budgeted at \$1,188,460, which is the same as last year. The stadium fund is transferring \$15,500 to inland parks for grass cutting services. Appropriations and transfers out increased by \$124,764 for a total of \$1,392,046.

The senior community services director is in charge and oversees inland parks operations. The director's salary is budgeted 100% in general fund senior community services department. Overall, the inland parks budget is slightly under funded with revenues and transfers in less than expenditures and transfers out by (\$186,986). The ending fund balance is budgeted at \$7,317 which is less than one month of operating expenditures using 12/13 budget figures.

The Coastal Parks Fund maintains approximately 2.79 miles of beach, one rv park and several picnic and recreation facilities. There is also a separate sub-fund, beach improvement fund which retains its own fund balance and is self-sustaining. Excluding beach improvement fund, total revenues and transfers in are budgeted at \$1,717,870, which is \$43,000 more than the previous year.

Appropriations and transfers out total \$2,393,517 up by \$92,672 compared to prior year. It should be noted that the \$150,000 of budgeted contingent appropriations is eligible for expenditure only if revenues exceed 2011-2012 actual levels. The ending fund balance is budgeted at \$134,037, which is less than 1 month of operating cash flow using 12/13 budget figures.

The coastal parks capital improvements fund is funded by 33.33% of the space rentals and is designated for expanding and improving the coastal parks. The coastal parks capital improvements fund has appropriations and transfers out of \$485,000 and ending fund balance of \$1,862.

This concludes the section on budgetary details and highlights on each operating fund in the operating funds group.

Budget Detail of the Debt Service Funds Group

According to the statement of indebtedness on page 428 total indebtedness at the beginning of this budget year (principal outstanding) is \$117,055,765. No new debt is anticipated to be issued during the 2012-13 budget year; however a refunding did occur on March 26, 2012. As a result of the refunding, \$715,000 was reduced in principle.

Revenue sources for debt service requirements are property taxes and investment and interest income. Total revenues for 2012-2013 are \$10,195,983. The property tax rate (for debt service only) is the same as last year at .058213. Debt service requirements appropriated are \$10,994,488.

The county's annual debt service as a percent of the sum of general fund appropriations plus transfers out and debt service appropriations is 12.08%. Last year this ratio was 11.99%. This measure indicates that the County is in a good position as to credit standing and the debt burden does not exceed the community's ability to repay. In general, a debt burden is considered high when debt service payments represent 15-20% of the combined general fund operating and debt service fund expenditures and transfers out.

Other factors, such as a stable tax base and the demonstration of a trend of solid financial position, also affect this ratio. The last credit rating done was February 2012. The county was affirmed on its AA+ rating by Standard & Poor's and its Aa2 rating by Moody's.

The budgeted ending fund balance is \$4,065,787. The county makes four payments per year: November, February, May, and August. The largest principal payment is made in February. To ensure that the funds are on hand when the February principal and interest payments are due, the County plans to slowly increase the fund balance to equal the subsequent year's February debt service requirements. The budgeted ending fund balance represents 52.32% of the February 2014 debt service requirements.

Budget Detail of the Capital Projects Fund Group

The capital projects fund is not subject to annual budgetary limits because each project has its own budget that usually overlap fiscal years. The capital projects fund is a multi-year funding plan and is not controlled by the annual appropriations budget. There are three sub-funds within the capital projects fund that are used to account for the specific funding sources. The general capital projects fund, department 1901, is used to track individual projects mostly funded with general fund monies via transfers in. Department 1915 capital projects is used to track projects funded mostly by certificates of obligation series 2004 monies. Department 1917 capital projects is used to track projects funded mostly by certificates of obligation series 2007 monies. Project budgets total \$148,069,696. Of this amount, \$12,814,570 is remaining to be spent for completion.

Please see pages 410-423 for a short list by department of the projects in progress. For a detail listing of the individual projects, please contact the county auditor office.

Budget Detail of the Other Funds Group

There are three types of funds in the group of other funds: the special revenues fund, the grants fund, and the self-insurance fund. The budgets of these funds are controlled at the fund level by commissioners court.

The Special Revenues Fund accounts for numerous sub-funds that are considered “special” because the monies can only be spent on the designated special purposes as ordered by commissioners court or required by statutory law or contractual stipulations. Each sub-fund retains its own fund balance. The sub-funds are organized and presented by spending authority or like-kind purposes. All sub-funds are summarized on the *Special Revenue Funds Summary* shown on page 272 according to spending authority or like-kind purposes.

Total combined revenues and transfers in are budgeted at \$5,214,300, an increase of \$97,340 as compared to the 2011-12 budget. Combined total special revenue fund appropriations and transfers out increased by \$3,132,386, for a total of \$12,708,773, providing additional resources for specific public purposes. Combined budgeted ending fund balance is \$580,293 as compared to last year’s balance of \$2,963,060.

The special revenue fund is increasingly becoming more significant to county operations. When legislation requires certain fees collected be spent for specific purposes, this revenue in the past was not considered a major operating fund. Because of the amounts involved and the growing interest in specific legislation, this fund may be moved from the other funds group to the operating funds group in future budgets.

Grant Funds are presented beginning on page 399. Separate sub-totals are shown for the main grant fund and the TJPC juvenile grant fund. Grants funds are not subject to annual budgetary limits. Each grant is subject to its own contractual budget and time frame which usually overlaps the county’s fiscal year.

The sum of all contracts in the main grant fund including pending applications is \$8,014,031. Out of this total, grant revenues amount to \$7,752,649, or 96.74%. The county has other grant funding available which is not included here, but instead is accounted for in the general fund as intergovernmental revenues.

The TJJD juvenile grant fund shows contract amounts totaling \$2,502,606, a decrease of \$157,000. Of this amount, grant revenues amount to \$2,502,606, or 100%.

Grant schedules are presented to facilitate the budgeting of inter-fund transfers and are presented on pages 402. The areas where the county is focusing future efforts to obtain grant funding are drainage, parks, and economic development.

The Self-Insurance Fund is an enterprise fund and contains three separate sub-funds: workers compensation; property, auto, and general liability; and group health insurance. The county is self-funded for general liability, professional liability and law enforcement liability subject to state law limitations under the tort reform act. The county limits its risk on health insurance claims by having individual stop-loss coverage at \$300,000. The county has

commercial insurance policies to cover most risks for property and auto losses. For a complete list of insurance policies in force please refer to page 464.

The workers compensation fund covers direct expenses of pre-1995 cases. For cases originating in 1995 and thereafter the county has outside coverage. The outside insurance coverage is through an insurance pool administered by the Texas Association of Counties (TAC). Each operating fund and any special revenue fund with personnel are assessed a self-insurance premium by this workers compensation fund.

Commercial insurance policy premiums are then paid to TAC from the workers compensation fund. Commercial insurance premiums paid to TAC are budgeted at \$360,000, the same as last year's budget. The ending equity fund balance is budgeted at \$400,000.

The property, auto and general liability fund is used to pay commercial insurance policy premiums, deductibles, civil settlements (self-insured) and disaster property losses. Operating funds are charged self-insurance premium fees that are recognized as revenue in this enterprise fund.

Every year the county attorney reviews and estimates the contingent liability on pending lawsuits. The commissioners court determines a funding plan for these estimated liabilities and accrues this expense to a balance sheet liability account. The county takes an affordable conservative approach to funding these estimated liabilities and is currently compliant with that policy.

The self-insurance premiums charged to the operating funds were increased by \$112,002 for a total of \$1,538,506. The budgeted ending equity fund balance, which is separate from the estimated liability account, is \$329,087 increasing by \$3,240 compared to previous year. Total appropriations are higher than last year for a total of \$1,639,000 increasing by \$209,238.

The health insurance fund was set up when the county went self-insured on its group medical coverage in the early ninety's and had been dormant until October 1, 2001 when the commissioners court went self-insured again for group medical coverage.

The commissioners court determines the premium rates charged to both employees through payroll deductions and what the employer pays, that being Nueces county. All premiums charged (employer and employee paid) are deposited into this health insurance fund. Medical claims, prescriptions, underwriter's insurance and administration fees are then paid for from this fund.

By going self-insured, the commissioners court is anticipating better control of the costs and preventing wide fluctuations in the future. Expenses were budgeted the same as last year for a total of \$6,547,000. Budgeted ending equity fund balance is \$750,651. This includes full accrual of the 90 days runoff claims. The plan benefits remained the same as last year where changes required by the health care reform act, i.e., dependents covered until age 26, mental health, pre existing exclusionary clauses, etc. were added. Premiums charged to employees stayed the same as last year.

The budget plan for each sub-fund is to maintain the ending balances at their current level.

Having completed the budgetary analysis on the other funds group, this completes the budgetary analysis on all county funds.

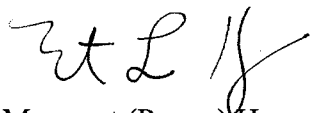

Acknowledgments

This budget adopted by the Nueces County Commissioners Court establishes the legal spending limits for 2012-2013. The county has in the past and plans to continue in the future its conservative approach to monitoring expenditures to ensure that fund balances stay strong at the 25% general fund policy level. Good management practices contributed toward the two credit rating agencies deciding to reaffirm the county's "double A" ratings (AA+ and Aa2) two years ago. As Standard & Poor's stated, "[Our] stable outlook also reflects our expectation that county officials will maintain reserve levels at a strong level."

The local economic environment has improved and the outlook is positive. The commissioners court with Samuel L. Neal, Jr., as the county judge continued a conservative approach to this budget which will maintain county services and keep high credit ratings. The county anticipates actual performance to compare favorably to this budget at the end of 2012/2013 fiscal year – with the reserves right on target at 25%.

My thanks and confidence to Judge Neal and county commissioners, Mr. Steve Waterman, Director of Commissioners Court Administration, county auditor staff and all other county officials for a good job done. For their leadership, guidance and support from the Honorable State District Judges, I am most thankful. They set the bar. To the citizens of this community, this is the 2012-2013 budget for your county government services.

COMMISSIONERS COURT RESOLUTION REGARDING COUNTY INTERFUND LOANS

WHEREAS, a number of the grants awarded to the County are reimbursement grants, requiring the County to expend county monies before getting access to the grant funds;
