**Estimated Debt Service Information:**

The following table sets forth the estimated principal amount of, and interest due to maturity on, the bonds to be issued if Proposition B passes, and all existing outstanding obligations of the District secured by and payable from ad valorem taxes.

Principal Amount of Bonds to be authorized under Proposition B	Estimated interest for Bonds to be authorized under Proposition B <sup>(1)</sup>	Estimated combined principal and interest required to pay on time and in full the Bonds to be authorized under Proposition B <sup>(1)</sup>	Principal of District's Existing Outstanding Debt (as of 8/12/20)	Remaining interest on District's Existing Outstanding Debt (as of 8/12/20)	Combined Principal and Interest to timely pay District's Existing Outstanding Debt (as of 8/12/20)
\$241,000	\$15,607	\$256,607	\$5,767,000	\$418,432	\$6,185,432

<sup>(1)</sup> Interest is estimated based on bond market conditions as of 8/12/20. If Proposition A is approved by the voters, upon the actual sale of the bonds, the principal amount of bonds sold may increase (but not in excess of authorized principal amount of \$4,224,000) or decrease based on market conditions at the time of such sale. The interest on the proposed bonds under Proposition A was calculated at a rate of 1.26% based on market conditions as of 8/12/20, and therefore, the interest payable on such proposed bonds may be less than, or more than, the amounts set forth above based on market conditions at the time of sale of the proposed bonds to be authorized under Proposition A.

Based on the information and assumptions provided in the table above, the estimated maximum annual increase in the amount of taxes that would be imposed on a residence homestead in the District with a taxable appraised value of \$100,000 to repay the proposed bonds to be authorized under Proposition B, is \$0. This estimate assumes annual growth of the District's taxable assessed valuation at a rate of 2.00% through tax year 2025, and holds the District's taxable assessed valuation constant thereafter, and assumes that the proposed bonds will be issued in an amortization that will produce relatively consistent levels of debt service, when combined with the District's currently outstanding debt obligations, in each year through 2025, with an assumed maximum annual debt service payment for the proposed bonds and all currently outstanding debt obligations of approximately \$1,792,050 coming due in fiscal year 2025/2026.
